

COMPANY PROFILE

ELSE s.r.l.

was founded in 2015, arises from the need to give answers increasingly precise and responsive in the times required by the market, to meet this need all the activities are carried out with the greatest operational flexibility in terms of times and places, this allowed us to reduce the cost of structure, our current location fact is only 45sq.m.

ELSE mainly operates in 3 divisions:

SOFTWARE CONSULTING

we are specialized in HTML5, CSS3, javascript (Angular, React), J2EE (Websphere, Weblogic, JBoss), .NET (C#) and PHP (Laravel Framework); in Database Engine as Oracle, SQL Server, MySql, DB2.

Reached Targets:

Development of software services for the Company's business using: framework Java Spring, Apache FOP, for document generation, Apache POI to interact with the Microsoft suite Office.

WEB PORTAL and APP for FIDELITY and CLIENT MANAGEMENT

we recently created a portal that addresses to restaurateurs for customers management: www.elsei.it/RElse with its app on mobile.

Work in Progress:

Portal creation dedicated to bicycle dealers and parts, warehouse management and on-line customer request with common database

IMPORT and DISTRIBUTION of CONSUMER ELECTRONICS

we select manufactures and make with these, distribution agreement to provide our customers innovative, exclusive and high-quality products.
